## ***Important Guidelines For Travel Grant Award***

- To avail the Travel Grant, it is mandatory for all participants to attend the entire Conference in Person which is scheduled on 27<sup>th</sup> & 28<sup>th</sup> April 2023 at VISAT Engineering College, Ernakulam, Kerala, India.
- The faculty member selected for the travel grant award must have been associated in teaching or guiding research projects in Nanoscience & Nanotechnology.
- While the conference organizing committee is interested in reimbursing travel expenses for travel grant award winners from the distant cities/towns, budget limitations may permit reimbursing these expenses only to some extent. Hence aspiring candidates for travel grant award are advised to opt for these reimbursements only on a need basis as your genuine discretion would help organizing committee to award travel grant to more aspirants.
- Travel expenses for reimbursement will be calculated as per shortest route of travel: by AC 3-Tier in Train/flight up to a maximum of Rs.5,000/- or actual (whichever is lower) for faculty, by AC 3-Tier/Sleeper class in Train/AC bus up to a maximum of Rs. 2,000/- or actual (whichever is lower) for students. Travel grant award winners are required to make their own accommodation arrangements.
- It is imperative that the travel grant award winners should attend tutorials and presentations on all days. A record of attendance would be maintained for the same. Lack of attendance may cause the reimbursement to be disapproved.
- Identity card showing their affiliation is a must to get the reimbursement.
